

Nano Clean & Conserve for plastic surfaces

Product properties

Highly active cleaner and long-term conserver for optimal cleaning, care and reconditioning of previously sealed plastic surfaces (e.g. helmet visors). Extremely dirt and water repellent, considerably prolongs the sealing effect.

Area of application

Suitable for: previously sealed plastic surfaces (e.g. helmet visors)

Application

Spray onto the surface to be treated. Clean with a sponge or wash glove and rinse with clean water. While rinsing, the Nano effect shows by the spontaneous breaking, the smooth surface and a fresh gloss. The remaining water drops on the plastic surfaces can be removed easily with a soft towel or chamois leather. Attention! Don't use on hot surfaces or under direct sunlight! Check product for suitability and compatibility before use!

Consumption

5-30 ml per m²

Technical data

Physical state: liquid

Colour: yellow

Odour: characteristic

pH-Value (at 68 °F): 6 - 7

Density at 68 °F: ~ 1,00 g/cm³

Water solubility: miscible

Available size	Item no.	PU
500ml	21630	12
